OPINION, OF SMALL CONSEQUENCE

(Associated Press)

Washington, June 16.—Former Secretary W. J. Bryan, in the first section of his statements on the European war, today, prophesies that the greatest peace-making opportunity of all history is certain to come to the United States. He declared also that with the return of peace there would be a demand for an international conference to change the rules of international law, which "seem to have been made for nations at war rather than nations at peace."

In speaking of the inconvenience of the war, he said the scarcity of American merchantmen was one of the greatest embarrassments to the United States.

ATTENTION THE OUTCOME  
OF THE FRANK CASE

(Associated Press)

Atlanta, June 16.—Gov. Slaton today heard further arguments on the question of commuting Leo Frank's death sentence for the murder of Mary Phagan to life imprisonment. W. M. Howard continued his plea in behalf of Frank, which was interrupted by a recess Monday.

INDICTMENT OF CONLEY WAS  
INDEPENDENT

Throughout his argument, Howard contended that the evidence in the case pointed to Jim Conley, the negro factory sweeper, and one of the chief witnesses against Frank, as the girl's murderer, instead of Frank.

The governor interrupted the argument at times to ask questions. Solicitor Dorsey, in reply to a question, said the indictment against Frank was returned independently of Conley's affidavits.

BRAVE RUSSIANS STEADILY FIGHT THEIR LOSING BATTLE.  
WAR SEEMS DEADLOCKED IN THE WEST

London, June 16.—German claims of successes on the Galician front in the continental war have partially been confirmed today in an official statement from Petrograd. It admits the withdrawal of Russian troops across the frontier at places.

In the vicinity of the Stry and Tismenitz rivers, however, the Russians claim successes.

## KOCISKA CAPTURED

Kociska, on the line of the railway between Przemyśl and Lemberg, on which the Austro-Germans have centered their efforts since the fall of Przemyśl, has been taken. Kociska is about twenty miles east of Przemyśl and is almost in a direct line with the capital, against which the energies of General von Mackensen, the German commander, are being directed.

## HAS HIGH HOPES

An unofficial report says that Von Mackensen has telegraphed the German emperor he hopes to occupy Lemberg by July 1.

There are still many obstacles, however, in the way of victory to the Austro-German arms in this part of Galicia, for the Russians hold strongly fortified positions many miles in front of Lemberg, and in addition will have the advantage of natural defenses of the country roundabouts, including a chain of lakes and marshes.
